

Z-ARM MIXERS

Mixtec – Western Engineering’s Z-Arm Mixer is ideally suited for rapid mixing of highly viscous products.

400L working capacity. Powered by a large 22kW SEW geared motor with a high service factor ensuring reliable operation and long service life. Heavy duty Z-Arm rotors cast from 304 or 316 stainless steel and polished to food grade finish. Shafts are sealed using packed glands with PTFE food grade packing. Unit rotates to discharge using a built in hydraulic cylinder and powerpack. Complete with a control cabinet with VSD and safety switches. Options include a dust proof lid, touch screen recipe control system, food grade oil and a compact footprint version.

Mixtec – Western Engineering are a 100% NZ owned and operated company that prides itself on quality and on-time delivery. All mixers are custom designed by our highly trained mixer design specialists who focus on the mechanical integrity of the mixing components and drive system resulting in reliable and robust solutions. Mixtec has extensive experience in the dairy, pharmaceutical, food, beverage, wine, chemical and water care industries.
